REITERATED ASSERTIONS

Members of the Chinese Legations Are Still Declared to Be Safe.

TO BE SENT TO TIEN-TSIN

English Secretary of Chinese Legation in London Repeats His Assurances Britons are Skeptical.

London July 23 11 30 p m—Sir Halliday McCartney counsellor and English secretary to the Chinese legation in London asserted last evening that the Peking legation [illegible] are safe and about to proceed to Tien-tsin

London July 24 1 a m—The Chinese minister Sir Chih Chen Lo Feng Luh has communicated to the press the following dispatch from Sheng director of the Chinese railway and telegraphs and taotai of Shanghai dated Shanghai July 23 —

Information from Peking dated July 18 says that the young Emperor deputed Wu Jui an under secretary of the department to see the foreign ministers and found [illegible] without any missing The German excepted

General Yung Li is going to immobilize the throne to send them all under escort to Tien-tsin in the hope that the military operations will be then stopped [illegible]

The Daily Mail telegraphing July 23 says A letter from a Chinese official in Shan tung has been received by an attache of the American legation containing the following passage At the beginning of the month the foreign missionaries (?) made several attempts to send messages out of Peking but thanks to the strict watch kept on the exits the bearers were all caught and executed On the 4th inst only 400 foreigners much exhausted were left alive in Peking and one night when the big guns were [illegible] known that all the legations and foreigners were finished although pretended telegrams contradicted these facts

The St Petersburg correspondent of the Daily Mail asserts that there are differences of opinion in the Russian council of war

The minister of war General Kouropatkin wishes to send 100 000 men to clear the regions out of [illegible] On the other hand according to this correspondent Emperor Nicholas wishes the operations limited to the defense and pacification of the frontier districts [illegible] strong armies one of which marches in the scale from the direction of the Russians in the north confronts the Chinese and the rising so the czar said to a friend would be bound to [illegible]

It is reported to have declared at the

What we desire is peace to troubles and to steer into smooth waters the Chinese ship of state now buffeted by the waves of civil war

There is nothing further this morning [illegible]

The situation Two urgent dispatches were [illegible] yesterday by the Chinese minister to the Peking government and the administrator of telegraph communication strongly recommending the restoration of telegraph communication so as to enable the powers to learn of the safety of the foreign ministers Until such proofs are secured no one here is inclined to alter the opinion that the Chinese are merely juggling to gain time

Rumor circulates briskly around the personality of Li Hung Chang He is credited with a mission to offer to cede to the allied powers two provinces as indemnity for the Peking outrages and also to offer to restore order and give facilities for trade with the outside world on condition of the surrender of Prince Tuan Yu-hsien and Manchuria

[illegible] all missionaries Little attention however need be paid to any of these rumors

In a private message from Shanghai it is asserted that Li Hung Chang avows that the object of his journey is to place the regular Chinese army in line with the allied troops for the suppression of the Boxers

The Times editorially suggests that Li Hung Chang is playing the old game of the sublime porte by putting forward proposals which will appear in different guises and lead to different powers It says

President McKinley has been asked to mediate and the request is facilitated by the case which has been taken in Washington—not to commit the United States to any very thoroughgoing policy

Indian troops are daily arriving at Hong kong Three transports reached there on Sunday and others have left Hong kong for Ta-ku

Reports from Canton say the city is outwardly quiet but that there is a strong undercurrent of unrest among the Chinese Only a few Europeans have left Canton Many [illegible] St Petersburg dispatches represent the situation in Manchuria as far more serious than had been supposed It [illegible] the Chinese [illegible] capital Hellar where the Russian railway is destroyed

According to the St Petersburg correspondent of the Times General Kouropatkin the Russian minister of war will probably become commander-in-[illegible] and will presumably take command of all the allied troops

ANOTHER REPORT DECLARES PEKING FOREIGNERS SAFE

Washington July 23—The state department made public the following

The state department has received a dispatch from Mr Goodnow the consul general at Shanghai dated today saying that Prince Tuan who is the leading member of the imperial government and who is known to be unfriendly to foreigners has been deposed and Prince Ching and Li Hung Chang appointed in his place Prince Ching is pro-foreign and Li Hung Chang is friendly Mr Goodnow says that he has seen a dispatch from Sheng the director general of railways and telegraphs to the Chinese minister at Washington dated July 18 saying that the foreign ministers and all the foreigners at Peking were under the protection of the government and were safe Mr Goodnow says that Prince Tuan was ordered to the capital by the emperor and empress dowager to explain his course toward the foreigners He has from the first divided with Sheng the director of posts and telegraphs at Shanghai the distinction of being the only means of communication between Peking and the outside world

Therefore it is extremely probable that he has served in the same capacity in this instance

On the other hand if this dispatch really came from Prince Tuan the fact would be of great significance In the opinion of the officials here it would indicate that this official either has been grossly misrepresented as to his anti-foreign tendency or that he is seeking to escape responsibility for the outrages upon foreigners an act in itself significant of a breaking up of the anti foreign party with each principal looking out for himself

Later this afternoon Mr Wu the minister will present a communication to accompany what the president has to say He expects however to have the document ready for transmission early tomorrow

ALABAMA LYNCHING

Affair Took Place Near Huntsville and the Prisoner Was Defended By the Sheriff

Huntsville Ala July 23—Elijah Clark a negro who yesterday assaulted Susan Priest a 13 year old girl was taken from jail in this city tonight and lynched near the spot where his crime was committed His body was riddled with bullets

Sheriff Fulgham defended his prisoner to the last and shot Will Vining who attempted to rush through the crowd and up the jail steps

In response to an appeal from Sheriff Fulgham made earlier in the day Governor Johnston ordered militia companies here from Birmingham, Montgomery and Decatur but they failed to arrive in time to prevent the lynching

NAPTHA LAUNCH EXPLOSION

A E. Crowe Injured, and His Wife and Son Killed

New York July 23—By the explosion of a naphtha launch on Long Island sound tonight Mrs A E Crowe and her 10 year old son Chilton were instantly killed and A E Crowe perhaps fatally injured Mrs Crowe and her son were frightfully mangled Mr Crowe was hurled into the water his thigh was fractured and he was internally injured

Mr Crowe is a prominent resident of New Rochelle and a member of the New Rochelle Yacht club

CANNERS' STRIKE

Victoria, B C July 23—The deadlock of the Fraser river canning industry has created much excitement and a conflict between the opposing sides seems inevitable The principal leader of the strikers Frank Rogers, was arrested today charged with intimidation It is possible that his removal from the scene may make compromise less difficult The canners claim that the terms offered by the cannery men are satisfactory to most of the fishermen and all the Japanese but that they have been intimidated by the strikers

The question of protective life and property belongs to the provincial government and Assistant Police Superintendent Stuart Murray is on the scene prepared to [illegible]

A number of boats will be sent out tonight under guard and the union men say this movement will result in serious trouble Several parties have attempted to go out to fish but the strikers have prevented their doing so It is current talk among the strikers that a British war ship is at hand and will interfere in the event of a conflict between the canneries men and their former employes It is also said that a detective agency has a number of men on the ground

TAMMANY EDICT

New York July 23—At a meeting tonight of the Tammany Hall general committee a series of resolutions upon the motion of Richard Croker were adopted containing the following

"Tammany Hall believes in the supremacy of the American flag wherever it floats but that it should float nowhere as the symbol of liberty and civil servitude combined for that is a combination which can work only dishonor to the flag and American institutions

"Tammany Hall condemns the waging of a war for conquest as an unwarranted [illegible] pledge of the nation as given by the president of the United States It condemns the unconstitutional action [illegible] for conquest without the authorization

The resolutions denounce monopolies and trusts and close with the following

The Democracy of the nation stands for national honor national conservatism national justice Tammany Hall faithful to the principles of Democracy and subordinating all things to Democratic success closes its ranks and calls for patriotic unity in the name of Democratic triumph

JUNEAU PLACER

Seattle, Wash July 23—Juneau has a full fledged placer mine excitement according to advices brought from the north today by the steamer Rosalie When the vessel sailed from Juneau July 15 a stampede was on to the new placer diggings on Glacier Bay, about 140 miles distant [illegible] being really new discoveries Not a few believe them to the diggings found and operated many years ago by the Russians In any event the finds are most promising It is claimed for them that an experienced miner can make considerably more than wages. Fully 300 people it is estimated have gone from Juneau to the [illegible] new discovery The bars in the mouth of the Glacier bay are all said to contain gold

ABSURD ON ITS FACE

Admiral Dewey's Characterization of the Letter to Pettigrew.

THE INCONSISTENCIES SHOWN

Statements Which the Admiral Is Alleged to Have Made He Declares Are Utter Impossibilities.

Washington July 23—The letter received by Senator Pettigrew from one of Aguinaldo's generals I Hejandrino containing an alleged account of an interview between himself and Admiral Dewey on board the Olympia April 1898 in which it is stated Admiral Dewey promised independence to the Filipinos was shown to the admiral today by an Associated Press reporter

The admiral characterized it a tissue of falsehoods He declared it absurd on its face I not only had no power to promise independence to the Filipinos said he but the whole tenor of the words put in my mouth stamps them as false I am made to say things which I never thought of and which I could never have uttered You will notice that I am addressed in the alleged interview as 'admiral' when at the time I was a 'commodore'

The admiral said he had never heard [illegible] much importuning came aboard the Olympia at Hong kong They were [illegible]

I considered their representations of little importance said the admiral and did not take them to Manila Later I gave permission to Aguinaldo and about a dozen other to come to Manila All that they were anxious about at that time was an end of the tyranny of Spain against which they had been fighting After the destruction of Montojo fleet the city virtually surrendered and I am satisfied that if we had had 5 000 troops there at that time, we could have gone ashore and been received by the Filipinos as deliverers They had absolutely no thought then of independence That was an after thought of their leaders during the interim between the smashing of the Spanish fleet and the arrival of the United States troops.

Speaking of the report that Cuba was to be evacuated by the American troops after the holding of the constitutional convention Admiral Dewey said he did not see how the United States could turn over the islands to the Cubans until a stable government had been established

We are responsible to the world for the orderly conduct of affairs in Cuba and [illegible] and until such a government is established I cannot see how we can withdraw We are confronted with a [illegible] question in the Philippines the world looks to us and no matter which political party wins in November the United States cannot relinquish the islands until a responsible and stable government is set up there."

PRESIDENT WILL MEDIATE

But Only Upon Conditions Which Must Be Met by Chinese Government.

Washington July 23—The president has listened to the appeal of the Chinese government as transmitted through Minister Wu and has signified his willingness to mediate between the imperial government and the powers but only upon conditions which first must be met by the Chinese government.

The exact nature of the terms proposed [illegible] be stated until tomorrow when it is expected that publication will be made of the text of the Chinese appeal and of the president's message

It is known however that the answer to Minister Wu and the statement of principles laid down by Secretary Hay in his identical note to the powers and moreover it accepts as truthful the Chinese statements relative to the safety of the foreign ministers at Peking

It would not of course be possible to take initial steps toward mediation were either party to the negotiations to entertain open distrust of the accuracy of the statements of the other There must be confidence between them

The United States answer does not go to the length of the French answer to a similar application in laying down conditions which the Chinese government could not meet even if so disposed even if it is actually struggling for its existence It does however look to the immediate relief of foreigners in Peking and moreover to the protection of all foreign missionaries and converts in China and to the restoration of order This much accomplished the state department feels that it can properly approach the powers with the Chinese propositions for a settlement for what has occurred

The Chinese appeal came to Secretary Hay yesterday through Minister Wu The secretary promptly telegraphed it to the president at Canton and after taking a full day for its consideration the president's answer came today It was put in the proper diplomatic form and [illegible] Minister Wu who is to forward it to his own government The appeal and answer will be made public here tomorrow

The imperial edict made public today at the state department shows that the imperial government already has taken the first [illegible] indicating what the United States government requires as the principal condition for the exercise of its good offices in enjoining the viceroys magistrates and leading men to [illegible] and protect foreigners and our government will await the result of this before proceeding further

It is expected that adverse criticism in this matter will be heard from Europe where the governments are acting upon the belief that all the foreign ministers in Peking [illegible] All of the European governments have taken the stand above indicated The last of the answers to Secretary Hay's note reciting the Conger message have come and all of them in terms polite and diplomatic express utter incredulity in the authenticity of the Conger message Consul General Goodnow himself a man of good judgment also exhibit a warning to Secretary Hay against the acceptance of the message without confirmation But the state department has fully considered the message in all of its aspects and has carefully weighed the numerous objections and suspicions put forth here and in Europe and without guaranteeing the authenticity of the message feels it to be a matter of prime duty to act upon the theory that it is genuine

Admiral Remey's notification to the department that he has come in person up the Pei-ho from Ta-ku to Tien-tsin is attributed to the receipt by him of Secretary Long's urgent message to hasten the efforts to get to Peking and important news from him is expected soon.

The Goodnow cablegram reciting the message from Prince Tuan as vouching for the safety of the foreign ministers on July 18 caused a ripple of excitement for a time at the state department but the officials soon concluded from the context and other circumstances surrounding the [illegible] meant instead of Tuan, so that the message lost the value it would have had if it had come from the redoubtable Boxer leader

MORE DEFINITE DETAILS OF ALLEGED GOEBEL PLOT

Georgetown Ky July 23—The courtroom was only about half filled with spectators when the Powers case was called today The prosecution gave notice that they [illegible] dozen persons summoned as witnesses from that side Among those excused was Ike Golden brother of Sergt F Wharton Golden

Lieut John Ricketts an officer in the Barbourville militia of high John Powers was captain was the first witness today He arrived in Frankfort Jan 25 with the trainload of mountaineers [illegible] Frankfort Witness said the men were told to report to W H Culton for rations The men were armed with guns and pistols Arriving at Frankfort they took possession of the Agriculture building and stacked their guns there

Witness said each morning a crowd of from 300 to 600 mountain men occupied the yard in front of the legislative building Witness had a conversation with Youtsey the day before the assassination Youtsey said Goebel had to be put out of the way and he (Youtsey) had $100 which he would given for that purpose and knew ten or twelve others who would also contribute to such a fund Youtsey also said Goebel could be killed from the executive building that the assassin could escape through the basement and never be detected The said his job depended on Goebel being killed Fifteen minutes before the assassination witness saw Youtsey and the latter told him he wanted 25 or 30 men to accompany him to the executive building Continuing the witness said

Youtsey put us inside the executive building near the stairs He told us something was going to happen and we must remain there When he started through the hall I left and went into a private residence across the street from the building I had been there a few minutes when I heard the shots I did not know any of the men whom I left at the foot of the stairs in the executive building

Witness said that when Youtsey left the room he went in the direction of the [illegible] room

R E Coombs private secretary to Appellate Judge Hobson next witness told of a conversation between two mountaineers in the house lobby a day or two before the assassination, in which they spoke of picking them out meaning the Democrats

Witness explained that the men whom Youtsey placed were just outside the office or secretary of state He said he left because he did not want to be present in case of a killing

Cross examined by [illegible] when Youtsey placed the men in the hall he told them as soon as something happened a man would come down the steps and go away with them

During the cross examination Coombs ex Governor Brown objected to testimony that mountaineers went to Frankfort armed as the right to carry arms was a constitutional privilege The court took issue on this point and said that the law did not permit crowds of armed men not in the military service and called out in the regular way to gather for any purpose

Assistant Adjutant General Murray read a letter which he found on file in his office at Frankfort having been left there at the time of the evacuation of the Taylor troops It was from Powers to Adjutant General Collier, dated January 22 Powers says

We have undertaken a serious matter We must win We must have the men and guns

In consequence of the last defeats sustained by the rebels the Colombian revolution is now considered lost The government has again occupied Bucaramanga and Cucuta after a bloody battle in which many prisoners were captured.

BOERS AGAIN SUCCESSFUL

Another Bold Raid by General Dewet Cuts Roberts Communications.

CAPTURED THE HIGHLANDERS

One Hundred Men and a Supply Train Fell Into Hands of Boers--Advance on Honingspruit.

London July 24 The Daily Express has the following from Machadorp dated Monday July 23

There has been severe fighting during the last three days and the Boers have inflicted heavy losses upon the British at Dondorp

London July 23d Gen Dewet has again succeeded in cutting Lord Roberts communications, both by railway and telegraph and captured 100 of the Highlanders

The story of the federal commander's bold raid comes in the form of a telegram for Gen Forrestier-Walker dated Late Town July 22 forwarding a dispatch from Gen Knox as follows

Kroonstad July 22—[illegible] Broadwood sent by dispatch rider to Honingspruit [illegible] July [illegible]

Have followed commando since July 16 Had sharp fighting at Palmietspruit July 19 Yesterday [illegible] pursuing Jaager by daknass Light hustered it is found Our casualties are five killed and 26 wounded Reach Vaal Krantz today Enemy doubled its way back through Paarde Krat in darkness Shall march tomorrow to Roodeval station Send supplies for 3,000 men and horses also any news of the enemy's movements I believe the commando consists of 2 000 men and four guns and is accompanied by President Steyn and both the Dewets

[illegible] Kroonstad—The Vaal and main line of the railway north of Honingspruit have been cut and also the telegraph to Pretoria via Potchefstroom According to my information Dewet has crossed the railway and is now north

Gen Kelly-Kenny telegraphs from Bloemfontein under date of July

The railway has been cut north of Honingspruit and a supply train and 100 Highlanders captured by the enemy A report was received this morning that a large force of the enemy is moving on Honingspruit All communication with Pretoria is cut off The Second and Third cavalry brigades are following the enemy

The war office has received a telegram from Lord Roberts dated Pretoria Sunday July which [illegible] the news contained in the telegram from Gen Forrestier-Walker, given above and continues

"Methuen continued his march and the occupation of Hekport and engaged the enemy's rear guard at Zindafontein July 20 Casualties one killed and one wounded Early Saturday attacked the enemy again at Oliphant's Nek and completely disperse them inflicting heavy loss Our casualties were slight. WILLCOCKS' RETURN FROM THE RELIEF OF KUMASSI

London July 25—Adjutant General [illegible] received [illegible] dispatch from Col Willcocks the commander of the Ashanti forces in the field which Col Willcocks addressed from Kumassi July 15 and which describes the Ashanti campaign The dispatch says the Ashantis were active and the roads knee deep in mud Col Willcocks took a couple of villages by bayonet charge. Beyond Ekwandia he found the [illegible] in a strong position behind stockades It was a large [illegible] with the chief commander of the Ashanti army, estimated at 4 000 men

After a heavy fire on both sides for nearly an hour Col Willcocks ordered a bayonet charge, and the troops rushed the thick brush cheering vigorously. The Ashantis did not wait for the bayonets but fled in confusion The casualties of Col Willcocks force were two officers wounded, two natives killed and seventeen wounded

On finding Kumassi in such a terrible condition Col Willcocks after cutting bush and burning the bodies, placed the whole force upon half rations an arrangement cheerfully borne No opposition was met on the return

Kumasi July 23—The Kumasi relief column has just arrived here from Kumassi which it left July 17 bringing the old garrison—about 20 fairly fit men, 70 broken down invalids and some women and children in a pitiful condition

The success of Col Willcocks in the to a choice of route not suspected by the Ashantis who had concentrated in thousands along the eastern route but was necessary to the transaction of business between the two countries affected us very deeply It is the duty of the authorities concerned to cause stringent orders for the speedy arrest and punishment of the murderers to be carried out.

"Since the commencement of the attack on Tien-tsin there the foreign subjects and missionaries who have, on account of local disturbances suffered death or loss of property through no fault of their own We hereby command the governor of Peking and the viceroy of Chi-li to cause investigations to be made by their respective subordinates of all such claims except those arising directly from the said attack, with a view to their ultimate settlement Moreover, local outlaws and rebellious subjects have of late given themselves up to burning, killing and plundering, to the great disquiet of our loyal subjects This is an utter defiance of law. We hereby command that the said governors general, governors and commanders of our forces to investigate the [illegible] for the punishment of offenders and restoration of order as the necessities of the case den end We hereby command this, our general edict to be made known for the information of all it may concern Respect this

A significant statement in the above edict is noted in that passage which directs an investigation of all claims except those arising directly from the said attack (attack on Tien-tsin) with a view to their ultimate settlement

This appears to make plain not only that the Chinese government will settle claims for actual losses but that it has now formally decreed an exception of these claims arising directly from the attack on Tien tsin It seems to indicate that the Chinese government holds that the attack on Tien-tsin was unwarranted.

CHINESE EDICT WHICH IS REGARDED AS SIGNIFICANT

Washington July 24—The state department makes public the following text of an edict delivered today by Minister Wu to Secretary Hay This is the edict referred to by United States Consul Fowler at Chi-fu in his message received here yesterday

An imperial edict issued on the first day on the sixth moon (July 17), transmitted by the Viceroy Liu Kun Yih on the 20th day of July and received by Minister Wu on the 21st day of July at [illegible] o'clock

"The present conflict between China and the foreign powers had its origin in the long standing antagonism between the people and Christian missions The subsequent fall of the Ta-ku forts precipitated the meeting of force with force The imperial government having due regard to the importance of international intercourse still refused to go so far as to interrupt the existing relations We have already repeatedly issued decrees providing for the protection by the provincial authorities to protect missionaries [illegible] and converts and for the employment of force for the protection of foreign merchants and subjects residing in China who form a numerous body in the country should be protected without distinction

We hereby command all the Tartar generals governors general and governors of provinces to look after the foreign merchants and missionaries living in the open ports prefectures departments and districts under their respective jurisdiction and to afford them due protection in accordance with treaty stipulations without fail Last month we heard with profound astonishment and regret of the killing of the chancellor of the Japanese legation Mr Akira and the same fate befell the German minister whose residence at the capital was forced [illegible] The violent removal of the German minister whose residence at the capital

The Classic Rascal.

Whatever the generating principle or exact process of the heroic rascal's evolution he certainly arrived early, says Edith Kellogg Dunton in the July Atlantic In primitive literature he is generally a thief because thieving is at once the most obvious and most lucrative form of illegitimacy [illegible] He is always phenomenally cunning and charmingly reckless of all lives but his own and he takes an aesthetic pleasure in his own performances that lifts him far above the level of the merely mercenary robber

At first his presentation is naive and without question No stern regard for the ethics of meum and tuum blinds the author to the fact that craft and cunning as well as steadfast constancy or blunt honest courage, may be on a truly heroic scale So the wily Odysseus is as wholly a hero to his Homer as the warlike Achilles, and why should he not be, when double dealing and diplomacy were unquestioned laws in the Olympus all three prayed to?

Guileless Israelites were born to be deceived, so ran the primitive philosophy golden fleece was hung up to be stolen why, then turn one's enjoyment of so pretty a feat to sympathy for a wicked and outwitted dragon or a foolish king? Nobody is perfect, and simple stupidity is as likely as anything else to cover a multitude of sins

Three companies of the Fifteenth United States Infantry—I, K and L are under orders to leave Governor's island today for San Francisco, and the soldiers believe they will see active service in China before they return to this part of the world.

Japan Makes a Strong Protest Against Quarantine.

EASTERN NEWSPAPER MEN

Party from Atlantic States Will Arrive on Saturday—Democratic Innings at Boulder Chautauqua

Denver Bureau
Colorado Springs Gazette.

Denver July 23—This morning Governor Thomas was in receipt of a communication of Secretary John Hay enclosing an extended letter from the Japanese charge d'affaires at Washington. The letter is in the nature of a demand upon the part of the Imperial government of Japan that the Colorado state board of horticulture raise the quarantine against Japanese subjects. In conclusion Secretary Hay states very plainly that the government of Japan will insist that the race shall not be discriminated against. Governor Thomas stated this morning that he would take it under advisement and arrest with Dr. Tyler of the health board but with what result could not be learned.

Colorado is to be extensively advertised by the Cripple Creek Newspaper league, an organization in which are represented papers as the New York and Philadelphia Ledger, Journal, Baltimore Herald and others equally prominent. THE NEWS OF CRIPPLE CREEK

Suit Over Half Interest in Home Run Claim.

BRYAN AND STEVENSON CLUB

Organization Completed by Election of Officers. Charge of Theft Made on Little Evidence.

Special to the Gazette.

Cripple Creek, July 23.—In the district court today Daniel F. Guinan began suit against James Doyle, George Mechem and J. J. Wyett. The complaint states that the plaintiff in May, 1899, purchased from W. E. Rohde an undivided one-half interest in the Home Run lode mining claim. At about the same time James Doyle purchased an interest in the property also from Rohde for the purpose of making a sale of the property. In April, 1900, Guinan deeded his one-half interest to Doyle, giving Doyle the power to deed the property to purchasers with whom they were negotiating a sale. This deed was made, however, with the understanding that the instruments should not be recorded and that Doyle was to give it back in the sale was not consummated. The negotiations failed and the complaint alleges that Doyle had the deed recorded and refuses to relinquish the title that he pretends to own the property with the other one-half of it and on the 27th, 1896, gave a lease and bond to G. F. Mechem for $20,000 who assigned a one-sixteenth interest to J. J. Wyett. Guinan asks the court for a decree declaring him to be the owner of the undivided one-half interest in the property and that Doyle be compelled to reconvey it to him.

Margaret Peterson has begun suit against the Gold Valley Land and Milling company and [illegible] husband Simon Peterson. She alleges that she and her [illegible] entered into a contract with the defendant company for the purchase of lots 49 and 50, [illegible] addition to Cripple Creek for the sum of $[illegible], $10 cash, the balance to be paid in [illegible] payments of $25 each. She states that June 1 Peterson absconded and left Cripple Creek and asks the court that Peterson be decreed to hold what ever title he may have acquired in the property in trust for her and that the defendant company be compelled to deed the property to her on the payment of the $150 remaining due.

The Republican [illegible] was ratified tonight in this city by the election of the following officers: Frank J. Hangs, president; Henry Trowbridge, first vice president; Frank M. Hermond, second vice president; C. R. Young, third vice president; C. A. Prentiss, secretary; E. J. Bell, treasurer.

In the selection of an executive committee [illegible] were appointed to select 15 members of the executive committee, five each from the three different parties supporting the Kansas City ticket, to be submitted to the meeting. The executive committee as [illegible] the committee of five and selected as the meeting is as follows: Dr. W. P. Liggett, J. W. Brewster, S. D. Crumb, D. D. Davis, I. F. Arkins, F. H. Martin, P. F. Pinson, James Lynn, J. B. Wolfenden, Wm. H. Childs, Sam Prentiss, D. R. Young, Jay Pell and C. H. Outcalt and R. W. Rohde.

F. H. Martin and D. R. McArthur [illegible] for [illegible] Club Bryan and Stevens in 1896 with a silver dollar pitched in the air. This also presented 16 silver [illegible] and one gold [illegible]. Will Brinson made the presentation speech in behalf of the donors and E. J. Hangs made the acceptance speech in behalf of the club.

Celia Trevarthan's [illegible] hearing today by Justice McCullah on the charge of stealing $5 from a neighbor, Mrs. Maggie Morris. The testimony failed to connect the girl with the theft. The testimony of the complaining witness had only one point in it worthy of consideration by the defense. Mrs. Morris stated in her testimony that she saw Miss Trevarthan empty a pan of ashes in which was the shape of [illegible]. This testimony was subsequently denied by the defendant.

Tony Henrickson, who keeps a saloon [illegible] and Bennett street, [illegible] to the police today that he was held up last night in his place of business by two masked men and robbed of $150 and a gold watch and chain. He put up a small struggle. The police have put on a pretty thorough investigation of the affair and think that no robbers [illegible].

Tim H. Holman began suit for divorce today in the county court against Emma B. Holman. The complaint states the [illegible] were married [illegible] Colorado Springs 12 years ago and that the [illegible] Mr. Holman in January 1894.

Mark James, a native of England, took out his first naturalization papers [illegible] in the county court.

The infant child of Mr. and Mrs. [illegible] which died in Anaconda yesterday was buried this afternoon, the funeral being held at the family residence at Anaconda.

The six months' child of Mr. and Mrs. C. J. Murphy died this morning at 441 Whiting avenue. The funeral will be held at the residence tomorrow at 10 o'clock.

ELKTON

Special to the Gazette.

BRIEF CITY ITEMS.

Misses Anna and Bertha Wallace left yesterday for Cedar Rapids, Ia., where they will visit, for a few weeks.

Rt. Rev. Bishop Matz of Denver will be in the city on Sunday and will give confirmation at St. Mary's church.

M. M. J. Aiken was granted a permit yesterday to erect a four-room cottage on lot 15, block 13, on West Kiowa street. It will cost $1,500.

The preliminary hearing of John Lovell, who was captured last Friday in Pueblo for stealing horses in this city will be held this afternoon at 2 o'clock in Justice Ruby's court.

Word was received in the city yesterday that a fine new baby daughter had been born to Mr. and Mrs. T. P. Day, who are now visiting with friends in Englewood, Chicago, Ills.

A large number of people took advantage of the cheap rates to state points yesterday, and all the local railroad offices were busy all day selling tickets.

Hon. Champ Clark, the celebrated congressman from Missouri, will deliver a lecture on "Imperialism" next Friday evening at the Texas-Colorado chatauqua at Boulder. The Colorado & Southern will make a special round trip rate of $2 for all who go from this city.

Mrs. E. A. Beck, living near Le Roy, Teller county, died at 11:30 o'clock Sunday evening of arterial rheumatism and congestion of the brain. She had been ill but four days. Mrs. Beck came to Colorado but a month ago, she and her husband having left Fort Worth, Tex., in search of a climate that would be beneficial to the health of Mrs. Beck. The funeral will be held this afternoon at 3 o'clock from the Cumberland Presbyterian church, and the interment will be at Evergreen.

THE UNLUCKY TWELVE IN POLICE COURT

Judge Owen spent several hours yesterday disposing of the 12 men who were arrested early Sunday morning in the Brunswick billiard hall on Pike's Peak avenue on charge of gambling. The 12 arraigned before him consisted of seven colored men and five white men. When the men appeared in court yesterday morning, all of them pleaded guilty to the charges preferred against them except O. M. Ritter, Wiley Morris and Will Montgomery. Their cases were set for hearing in the afternoon at 3 o'clock. Ritter was found guilty and fined $10 and costs. Montgomery and Morris were discharged. The following disposition was made of the others:

George Freeman, fined $10 and costs; paid and was released.

Jas. Johnson, fined $10 and costs; paid and was released.

Smith Kidwell, fined $10 and costs; paid and was released.

George Finnigan, fined $10 and costs; committed.

Will Walker, fined $10 and costs; committed.

RAILWAY MEN TO DISCUSS POLITICS

Organizations at Colorado City Will Meet This Afternoon.

FOR EXPANSION OF THE CITY

Mayor Appoints a Committee to Discuss Advisability of Annexing Several Sub-Divisions to Colorado City. Other News of the Thriving Sister City.

The various organizations among the railroad men of Colorado City will hold a union meeting this afternoon in the council chamber at the town hall. It will doubtless be one of the largest conventions of the kind ever held in the city. It will not be confined to railroad men alone, although they will be largely represented and will doubtless assume the responsibility of all business transacted. The committee which is making arrangements for the meeting has issued special invitations to all labor unions in the city and they will be present by delegations.

The purpose of holding the meeting is to discuss state politics. The meeting which is to be held today has grown out of the meeting of the Railroad Men's congress held several days ago at Pueblo. At that convention it was decided to hold conventions in various cities of the state for the purpose of promoting the interests of all labor unions in a political way. Committees were appointed to make arrangements for holding such meetings.

At the meeting this afternoon the matter of voting for candidates for the state legislature will be discussed. It is the intention of the railroad men's organization to support candidates who will commit themselves to the cause of laboring classes, regardless of their political affiliations. They will name no candidates but will designate their wants in the form of resolutions which will be presented to whatever candidates are nominated.

The convention will be presided over by Mr. W. T. Martin, who has been appointed president of the local congress at the convention at Pueblo. Several speeches will be made by well known railroad men and members of other labor unions. The local organizations which will be represented are the Order of Railway Conductors, Brotherhood of Railroad Trainmen, Switchmen's Union of North America, Brotherhood of Locomotive Firemen, Order of Railway Trainmen, Ladies Auxiliary to the O. R. C. and the Ladies Auxiliary to the B. R. T.

Pursuant to a request made at the last meeting of the city council, the mayor has appointed a special committee to act with the city attorney in considering the advisability of annexing several adjacent additions which are now outside the city limits. The committee was appointed by the mayor yesterday and consists of J. B. Stephen, C. E. Corporan and W. P. Epperson to represent the citizens and Councilmen Allen and Miller to represent the council. The committee also includes City Attorney Ingraham.

Among the additions which are seeking to be annexed to the city are Arensdale, Love and Quinby's second addition, Bott's second addition, Sly's addition and what is known as Glasscown. It is thought that if these additions are annexed the population of the city will be increased to about 20,000 and will thereby create a second class city.

The committee will hold a meeting within the next few days to take up the matter with the city attorney.

A merry party of young people enjoyed a "hay ride" to Cheyenne Canon last evening. The party went from this city to Colorado Springs and from there to the canon. In the party were Misses Daisy Morgan, Emma Faulkner, Mattie McHargue, Ethel Clark, Cora Templeton, [illegible] Bell and several members of the Colorado Midland band.

Mr. and Mrs. F. C. Cowan returned yesterday from a visit with relatives in Kansas City.

Mrs. J. C. Grimes and daughter, Miss Beatrice, returned Sunday from a few weeks visit with relatives in Kansas.

Mr. C. N. Snyder went to Cripple Creek yesterday morning for a few days business visit.

Mrs. J. R. Goff has gone to Ellsworth, Kas., to spend a few weeks visiting relatives about her old home.

EMPTY PROMISES AND FALSE ASSUMPTIONS

THE Democratic claim to be entrusted with national authority rests upon four assumptions which are in order first that the Democratic party is able to conduct our relations with other nations in luding the so-called Filipino republic to better advantage than the Republicans second that by reason of the increase of the American army the country is threatened with danger to its institutions from which it is the duty of the Democratic party to rescue it third that the Democratic party proposes by legislation the tariff or otherwise which will relieve us from the disadvantages and dangers of those combinations and fourth that the Democratic party will restore free coinage of silver

As regards the first of these it is impossible to see how the change from Republican control would be an advantage The principle upon which the Republicans have been acting that is the preservation of American interests the observance of international obligations and a due regard for the welfare of the natives of the islands seems to be an absolutely correct one and the Democrats have not been able to establish yet a single instance in which the Republican administration has made a mistake in its principle or the application of it The proposition of the Democrats in effect to do just what the Republicans are doing but to do it under circumstances of double difficulty and danger The guarantee of independence to the Filipinos is nothing more than an invitation to civil war and the establishment of a dictatorship the pledge to establish a stable government involves all that the Republicans are doing or expect to accomplish while the guarantee of no interference by foreign nations involves the United States in responsibility for the islands in a way that would surely involve their conquest by our armies at no remote date

The proposal to reduce the army of the United States to the number maintained previous to the Spanish American war is as absurd as would be a plan to sink all the warships of the navy with the exception of a half dozen trusting to the merchant marine in case of war The lesson of the war with Spain was that trained armies cannot be created in a day nor yet in a month and that patriotism is not a substitute for discipline and training Hence the United States for its own safety must maintain a first line of defense in its standing army and afterwards it can safely rely upon its patriotic citi-

Democratic idea that a militiaman is as good as a regular is true then the standing army is in no danger for the militia must always greatly outnumber the standing army even when the latter is maintained at the number of 100 000 or more necessary to secure the nation s interests At the same time it should be remembered that the increase in the regular army has come about not because of any theoretical need for a larger force however good that theory may have been but because these soldiers were absolutely essential for the active operation which the United States was conducting against its enemies in the field The Democratic proposition to reduce that army at the present time is not a general and permanent settlement of difficulties which is wholly improbable or else what is much more likely a wholesale abandonment of American interests abroad and neglect of the most obvious precautions at home

As to the trusts there is nothing in the Democratic record to show that the party can or expects to accomplish anything in the way of satisfactory regulation or repression It is perfectly well known that prominent Democrats are connected with trusts and that some of the worst trusts receive no protection whatever from the tariff and to most the state legislature have had no bet

have had The insincerity of Democratic professions upon

fused to vote for a constitutional amendment intended to give authority to congress to deal with the matter in the plea that it was putting too much power in the hands of the government

And finally there is the silver plank which the Democrats are so thoroughly committed to that two third of the delegates to Kansas City were in favor of leaving out of the platform altogether The silver Republicans of Colorado are asked to vote for a Democratic candidate for governor because of a matter so important that Governor Thomas keynote speech made no mention of it The Democratic pretence of supporting silver has been so

bly regard Colorado Democrats themselves even in Colorado now make little of it and are inclined to treat it as something of a joke

them is sincere not one of the promises made by the Democracy in connection with them can be put into execution without grave danger to the nation at large and not because of these things the Democracy has the audacity to propose to turn out the Republicans who have accomplished national prosperity who have kept the national faith who have maintained national honor and interests through foreign wars and who have failed in no part of their duty at home in favor of the Democracy with all its record of failure incompetence and disgrace

But neither the false assumptions nor the insincere promises of the Democracy are deceiving the people this year The American people is against them on expansion on the maintenance of an adequate military force on the resumption of financial agitation and it sees no reason why it should commit trust regulation into their hands

The effort to combine four minorities into a working majority is ingenious and characteristic but it has very little chance of success

A QUESTION OF VERACITY.

THE letter written by Senator Pettigrew of South Dakota and the three thousand people of the United States is such will believe the word of an American citizen in preference to that of an American officer and a gentleman

Admiral Dewey s letter contains in the letter from Admiral Dewey was simply said No American admiral Dewey was a gentleman could have talked with a Filipino in such a way According to the story Admiral Dewey placed at your disposal the ships of my fleet for the movement of the Filipino leaders and the armies you may get I pledged the executive department of the government to confirm in line of conduct he limited congress in its legislative and war making powers and he undertook to interpret the constitution in disregard of the supreme court

It is inconceivable that Admiral Dewey should have made a statement of the kind unless he believes that he did so is unfamiliar mentally regardless ignorant of the character of American naval officers

There can be no doubt however that this Pettigrew is engaged in treasonable correspondence with the armed enemies of the United States and has been using the United States mail for such a purpose There may be doubt as to the political advisability of a prosecution but a crime against the union has certainly been committed and that if it were not that his term so soon expires the senate could do a good deed by his public expulsion from that body

CUBAN INDEPENDENCE.

THE report is current that a date has been selected for a constitution convention to be held for the purpose of arranging the terms of Cuban self government The preliminary elections for delegates to the convention will it is said be held in September and the convention itself will be held in October

Possibly the announcement of the intention of the American government has been hastened by the necessity for the removal of so many American regiments from Cuba as the near approach of the convention will decrease the probability of disorder in the island but in any event the next step in Cuban independence could not be greatly delayed

What is of far more importance is the statement that the convention is to be held subject to certain restrictions The Cubans are not to be allowed to do exactly what they please but a certain number of safeguards are still to be thrown around the island by the government of the United States The restrictions are said to be as follows

1 The foreign relations of Cuba to be managed through the American government at Washington

2 Cuba to have no power to declare war without the consent of the United States

3 The United States government to have a veto power over legislation increasing the Cuban debt beyond certain limits to be set forth in the new constitution

4 The United States to have a certain well defined supervision over the Cuban treasury

5 The United States to retain for a period of years if not indefinitely control of the fortifications which command the port of Havana and other important cities of the republic

It is of course a question whether the United States ought to assume any control or impose any limitation upon the constitutional convention which is shortly to meet in Cuba It will doubtless be said by the enemies of the administration that this is not in strict accordance with the pledge to give to Cuba her independence But on the other hand it should be remembered that the United States is also under pledge to the people of Cuba and to the nations of the world to secure a stable government in the island and that this pledge can hardly be kept by turning over the whole government unconditionally and immediately to the party that may happen to control the first election of constitutional delegates

If as is stated on good authority the American administration has gone so far as to arrange the schedule of the limitations upon the Cuban constitution we may be assured that there are good reasons for such a step reasons that are approved by the better classes of the island and that these limitations are not inconsistent with the

The form of government which it is proposed to create for Cuba is an intermediate step between the condition now prevailing in the island and complete independence If under it the Cubans succeed in conducting their own affairs satisfactorily and desire a larger measure of independence we do not doubt that it will be granted while on the other hand if the experiment is not successful the restrictions that it is proposed to apply will prevent the failure from being complete and disastrous

The gradual process is usually the safest and it would appear that the administration has found a wise method of solving a most difficult problem relating to Cuban affairs

A REQUEST FOR MEDIATION.

IF THERE remains a slight possibility that in spite of the mass of misinformation which has been sent out from China and about China the government of that distressed empire has been acting in good faith towards the foreign nations That treaties have been broken native and foreign Christians murdered and anarchy has been prevalent at the Chinese capital is certain and it is

that the revolutionary movement has been wide spread throughout the empire and has reached proportions which have threatened the

Dowager Empress and Prince Tuan

It is suspected that the imperial government

and this would explain the

shared the feeling against the foreigners

But if is not certain that the Chinese imperial government has been guilty of acts of bad faith towards the foreign governments and until its treachery is established it has a right to be considered as unfortunate rather than guilty

Under the circumstances the appeal made to the United States to show its friendship for the Chinese government by securing a settlement of the difficulties with the foreign powers is not one that should be summarily rejected The United States is definitely committed to the policy of maintaining the integrity of the empire which is most important for our commercial interests and this can

maintenance of a centralized government of China by the Chinese The Chinese are therefore asking us to do what our interests prompt us to accomplish and the satisfactory assurances recently received from other powers indicates that the task would not be an impossible one

Much however depends upon the present conditions in Peking and it is a necessary preliminary to any act on our part along the line suggested that we should know exactly what has been happening in the Chinese capital what is the fate of the ministers and to what extent the imperial government has been concerned in the events there including the murder of the German minister

Only when these things are made known beyond doubt can the United States receive friendly requests from the Chinese government but in the meantime there is no reason why the friendly approaches of the Chinese minister should be scornfully rejected as would seem to be considered proper by some of the European diplomatists

A possible explanation of the state department with regard to the authenticity of the dispatch from Minister Conger has been published According to this the cipher dispatch sent to Mr Conger contained directions with regard to the cipher answer which made it impossible for any one not in the secret to send such a reply as was received last Friday Certainly it would appear that the state department would not accept as genuine the message than any outsider possibly could be

The building of the new Russian cruiser Varing is a triumph for American shipbuilders The showing made by American built ships in the war with Spain was a demonstration of our skill in this line that was not lost on the world and the way in which our foreign orders are being filled is certain to bring us an increased amount of business for the future

The article editorial in regard to the inconsistencies of the Denver News on the subject of imperialism which appeared as a leader in yesterday s Gazette under the head of Clippings from the State Press should have been credited to the Denver Republican

The crowds of tourists now in Colorado Springs are delighted with the cool breezes the magnificent scenery and the manifold attractions to be found at Colorado Springs The city never appeared to better advantage to its summer visitors and each one of them becomes a promoter to increase the number of future visitors

REPLY TO PATTERSON.

Straight-Forward and Manly Statement by Mr. Frank N. Briggs.

(Victor Record)

Last Sunday's Denver News contained an editorial on Hypocrites Turning Traitors which was of considerable interest to the editor of the Record as he was one of the parties named as being participes criminis in the article

The resignation of F N Briggs as chairman and Charles J Perkins as secretary of the Teller Silver Republican party of Teller county was the subject under consideration

So far as Mr Perkins is concerned he is abundantly able to protect himself in any sort of a controversy and we shall not undertake to speak for him at this time

As to the writer having been publicly called a hypocrite and traitor because of our political action a public defense is not only proper but it is necessary

Four years ago F N Briggs was chairman of the Bryan Silver club of Victor an organization that raised hundreds of dollars and gave it to the Bryan campaign fund If this was treason we imagine the Democracy would like some more of the same brand

Four years ago F N Briggs was a delegate to the state silver convention at St Louis and acted as an assistant secretary there That convention nominated W J Bryan for president and the party gave him its support

If that was hypocrisy we plead guilty

Four years ago the Victor Daily Record of which F N Briggs has been the manager for five years supported Bryan and silver throughout the campaign

If that was hypocrisy we plead guilty to another count of the indictment

Four years ago F N Briggs cast his vote for Bryan and silver and the whole Democratic ticket If that was traitorism we were a traitor then

But times have changed and so have political issues

The Democratic press of the country including the Denver News since then forced the administration into a war with Spain To that war new issues were created The Democratic party has seen fit to antagonize the patriotic and progressive spirit of this country by placing the false issue of Anti-Imperialism before the people as the paramount issue of this campaign 16 to 1 is deliberately relegated to the rear There is therefore no show for silver in this campaign no matter which party wins and the News knows it

No loyal American citizen can give his support to a party that having forced the nation into war turns upon it and by its platform

agement to the enemy as the Democrats are doing No loyal American will consent to placing a party in power whose first act would be to tear down the Stars and Stripes from where they have been planted by the best blood of American manhood No loyal American will oppose a policy of expansion that means the advancement of humanity throughout the world and the greatest possible development of his own nation and state

Make the words of Senator Teller that through possession the Pacific ocean will soon become the front door of commercial America and the great west the richest and busiest portion of the United States

Two years ago the Denver News stood for expansion until Mr Bryan switched it around to the other side It was right then It is wrong now

Expansion will do much for our silver mines by creating a larger use for silver money It will make markets for our beef horses grains fruits coal iron and all kinds of manufactured products that Colorado can furnish from its boundless and varied resources

If it be treason and hypocrisy to be an expansionist under these circumstances we plead guilty

But what of Mr Patterson the editor of the Denver News? Is he as consistent and honest as he might be politically and otherwise?

Is Mr Patterson really a Democrat a Democrat Populist What has become of the Omaha platform? Is the present Democratic platform such a one as Populists believe in? Is not Mr Patterson at this time trying to barter away the rights and political privileges of the Populists for a place at the right hand of his Democratic oracles? Must all men bow to the will of Mr Patterson and his Democratic allies or stand ready to take columns of personal abuse from the Denver News and other yellow journals of lesser size and influence throughout the state?

Our understanding of a Silver Republican is that he is a Republican first all questions at issue except affecting the one free silver coinage If this is correct there can be no honest Silver Republican party in this campaign As the issues are made up one must be either a Republican or a Democrat There is no middle ground as there was four years ago when silver at 16 to 1 was the only real issue

In closing let us say In resigning the chairmanship of the Teller Silver Republican party we believe we have done the only consistent and honorable thing we could have done under the circumstances We do not believe in one single plank in the Democratic platform excepting the one favoring silver at 16 to 1 and by a poll of the delegates it was demonstrated that that plank was adopted under protest with a majority of the convention against it

On the other hand we believe in expansion the promotion of humanity throughout the world the redemption of the arid lands of the west the Nicaragua canal the enlarged use of silver through expansion and above all that every American citizen should uphold the men who bear up the Stars and Stripes wherever they wave For under their glorious folds will always be found the land of the free and the home of the brave

The Republican party stands for these things

The purity of motive and the absolute sincerity of the adherents of Kong Lo Hui are greatly assisted in the nature of the organization which he established From the outset it was made universal in its membership No oath or other test of loyalty was imposed It was presumed that nothing but patriotism would lead a Chinaman to affiliate himself with the movement Heads are at no premium in the Celestial Empire and rather might it be to the interest of the fellow who prefers to thought the powers that be Whoever a Chinaman may be he is certain to be a member of the Po Wong Woey if he is in sympathy with the time He may be a

in the employ of the many merely lent his moral encouragement The order is as free and broad as a republic

As another evidence of the cohesive

declaration of principles There appear to be no formal officers The leadership is

The Chinese Empire

The Newest Thing in Slang.

(Chicago Times Herald)

The latest slang craze in New York is, it is fierce If one wears a shirt that has plenty of color his friends say it's fierce If a young lady comes out with snowy shoulders and a diamond tiara her admirers stand off and whisper one to another It's simply fierce If a horse shows up well on the track the sports pass along the word that he is fierce The color the fuss the winning five cent cigar is fierce Even when the lady is brought out all dressed in her downright beautiful auntie holds up her hands and exclaims Oh isn't the darling fierce Everything in New York is fierce just now The new steamship Deutschland which has taken the

is fierce A young lieutenant of the

pupils and Mrs Hetty Green Corbin's new automobile is fierce little Willie Vanderbilt's luck

tions at the recent Harvard wedding were fierce

If you have a serious question before men no one who is thoroughly up to the times at all must fail to say would that that is fierce This newest slang phrase is peculiarly particularly adapted to the summer season because it is used without any regard to the original meaning of the word It is in this way it may be most properly said that the Two Hundred Club may discuss a national policy at convention a telephone girl in love a dog fight a marriage in high life a christening a funeral or any other thing that happens in civilized humanity

For the people it is fierce comes as a boon at a time when boon are

things may be mad to be lucky as in entire absence It is a bit of slang that ought to be well worn by everywhere It should be especially fierce to anti-trust societies and to the

secretaries of women s clubs How much easier it will be for instance to spread upon the minutes the fact that Mrs Julia Hamlicker read a fierce paper on the use and abuse of husbands than to write an originally epitome of the day s matchless essay Its fierce is by far the best thing that has ever come out of New York and will have to be put in the dictionary of slang at once

GO WONG WOEY

To Save the Chinese Empire from Dismemberment

To save the Chinese empire from dismemberment That is the immediate object of the Po Wong Woey The patriotic members of this large movement realize the fate that awaits which the empire is drifting and they know that the policy of the Empress Dowager is only giving the foreign nations additional reasons for grabbing land Their proposals therefore go to the extreme length of deposing the empress depriving her of power If possible they will put back upon the throne the young Kwang Hsu and surround him with counselors from their own ranks hundreds of titled people whose sympathies has been enlisted either openly or secretly some person high or humble stands their purposes and will be ready to execute them

"Rotten on Its Face" Says Captain Coghlan

Stern and amusement both were portrayed in the countenance of Captain Coghlan as he sat in the Alamo yesterday scanning the publication of Editor Lethgie's unkind letter from the Philippines calculated by the ability expansionists to show that before the beginning of the insurrection Admiral Dewey promised everything except what he did. Capt. Coghlan commanded the Raleigh at the battle of Manila and was like the other commanders informed of the plans of the admiral. As he read the alleged letter, he frowned then smiled and laid down the paper with an air of disgust.

"I don't remember that the letter which was published in yesterday's dispatches from Sioux Falls S D stating that Admiral Dewey's flag lieutenant Brumley was the interpreter of the agreement and the outlandish promises alleged to have been made to the Filipino leaders and that Commander Wood of the gunboat Petrel was also a medium through which a part of the agreement to recognize the Filipinos as allies was made

Capt. Coghlan was asked for an interview on the letter

"No" he said politely "I will leave that for Admiral Dewey to refute I will only say that I was there and that this statement in the face of it is rotten on its face. The two men who could most effectively prove the falsity of the allegations are dead now."

Escaped from Office He Seeks Rest in Colorado

Just imagine yourself the fire committee the police committee the sealer of weights and measures and a large part of the city council—just you all by yourself—for a city of more than 100 000 inhabitants. Well that's what happened to John B Wight who is now at the Alamo. He was succeeded as commissioner of the District of Columbia. Mr Wight's term expired in May.

All the patronage of Washington and suburbs in the District of Columbia is handled out by the commissioners who are composed of two civilians and a member of the regular army engineering corps and one who knows much about a city hall in the states knows that three men who are the heads of the municipality would naturally feel glad to get to the rejuvenating climate of Colorado.

I dread to leave this climate said Mr Wight. Since I first came to the west I've dreamed that there is such an attractive exhilarating place in the United States as Colorado. I feel very much improved already having just arrived yesterday. I'm going from here to Manitou and Pueblo and then to Denver. I expect to be gone about two weeks. I'm returning from New York but I will continue my vacation in Colorado.

You may say that thus far I have not said a word about politics but because I'm a Democrat you will naturally expect me to say something against the administration. I'm not built that way. I'm a Democrat but I'm not a politician. I'm a business man.

I am better pleased than ever with my new hotel the Luk in New York. The owners will soon expend $100 000 and my partner and myself will put in a like sum the aggregate of $200 000 to go for furniture finishings decorations etc. Inside the building which will make it one of the most attractive hotels in the world. We now have more guests than the Waldorf Astoria and our immense courtyard is the coolest and most inviting place in the city. In winter the place is filled to its entertaining capacity for several months. The Park is an eight story building with comfortable accommodations for 500 guests and we hope to make it headquarters for Colorado and other western travelers while in the east.

One feature of the Park that is of especial interest to patrons as well as ourselves is that it has the lowest insurance rate of any building of its size in America. It was built by A T Stewart and is absolutely fire proof. So stable is the construction and evident the fireproof qualities that the insurance companies make the low rate. The building cost $1 500 more than was estimated and at completion represented an expenditure of $7 000 000.

Mr and Mrs Barnet will remain in Colorado Springs until early fall.

Manager F C Davis of the Elite laundry whose establishment was included in the alleged laundry trust referred to in Denver papers yesterday said to a Gazette representative:

There is absolutely no truth in the report. I have never been approached on the subject of selling out my plant and I would not consider a proposition at the present time for the reason that I do not want to quit.

I like the town too well to want to leave it and as long as I live here I want as good a business as I can get. I have recently reenforced my establishment and put in an entirely new plant and I would not sell it for anything that would be regarded as a reasonable price.

MINGLING OF THE NORTH AND SOUTH

After a day at the Foot of Pike's Peak the Alabama Editors and Ladies Were the Guests of the Press Club at Broadmoor.

A lot of muddy skirts wet feet and hair that would not stay in curl like rain still falling during the sightseeing reception did not deter any depreciations on Colorado weather even in the charitable language of an Alabama belle. A rollicking good time was on. Alabamans have a good time in the rain anyway but the animation and tenacious vivacity that prevailed had reached its zenith at Broadmoor Casino where the Pikes Peak Press club entertained the visitors with a ball and Colorado summer outing.

The club at least hopes the occasion will not be soon forgotten. In a heavy rainstorm the invited guests came all the way from the Mansions at Manitou to the number of 100 or more and for guests and hosts the entertainment was a highly pleasing one.

The Alabama gentlemen met Colorado ladies and tourists from the east some from the south and Colorado Springs young men enjoyed the distinction as a company of a delightful evening and an interchange of dance with the most attractive and entertaining product of the sunny south—the Alabama girl. Casullo's inspiring volume of music appropriate to the occasion and tasty refreshments from the ever popular Myeth the Tejon street caterer generated a feeling of satisfaction at having braved the elements. The older folks enjoyed the brilliant scene as a myriad of lights glowed resplendent over the coterie of beautiful young ladies and their beaux in the swirl of the dance.

Not a hitch nor a flutter occurred to mar the programme of pleasure. Once at the Casino the elements without were forgotten by the merry throng in the mingling of west and south. It was a thing of beauty and a joy forever.

All hail to the southern girls and here's to the men—hoping they will all come again. Incidentally let them not forget the open house at the chamber of commerce during the remainder of their sojourn in the region of Pike's Peak.

Yesterday was an eventful day for the southern people. They drove through the Garden of the Gods to Cheyenne canon all some of them went to the caves at Manitou. And there met was more wit good humor and heartiness of greeting to the square inch in any party than in this. The ladies especially give life to the trip. Where would a southern gentleman be without the ladies?

Their presence is essential to true enjoyment even on an editorial junket across the country and these editors from the south have brought twelve more ladies than they did gentlemen. On mountain and on plain in caves or up in a balloon if such were the programme—the ladies would be present and long live the men for it. The younger contingent of the fairer sex includes belles from all parts of their native state representing the best families adding the true southern beauty modesty grace and above all the intellect. Among the ladies are writers of note some of them having achieved wide reputations in connection with the papers owned by their fathers brothers or husbands. Perhaps it would be unbecoming to attempt to single out any of them for especial mention so numerous are those meriting such.

And every one of them is delighted with Colorado.

I am coming back to stay remarked one of the young ladies last night on the verandah at the Casino. I am in love with the Rockies and the mountains and am just dying to live here.

She is only one of many who expressed the same opinion of the Rockies and this vicinity.

Welcome if they do.

Today the pilgrimage leads the visitors to the summit of Pike's Peak and this evening to the Iron Springs dance tomorrow to Cripple Creek and tomorrow evening a large number will attend the hop at the Alamo. Thursday morning the special leaves for Denver and in the evening start for the land of cotton, cinnamon seed and sandy bottom look away.

JEFF DAVIS SHIPMENT

Thirty Tons Sent Out Which Will Average Not Less Than $50 a Ton --El Reno's Funeral Set for August 27.

Special to the Gazette:

Cripple Creek, July 23.—Lessee Jones of the Jeff Davis made another big shipment yesterday. Thirty tons were sent out, which will average not less than $50 a ton. For the first ten days of the month, nearly 20 tons a day were shipped, and to date 250 tons of ore have been marketed. This is a remarkable showing when it is taken into consideration that this ore has been hoisted without electric or steam power. The ore comes from the first or 50-foot level. From a cross-cut run to the vein from a point 75 feet in the shaft, ore is also being saved. As soon as a steam plant is installed, sinking will be resumed and this drift will be abandoned. The plant now on the Home Fraction is to be removed to the claim immediately.

El Reno Company.

At a meeting of the directors of the El Reno company, held here tonight, the secretary was instructed to notify the stockholders of a final dissolution meeting to be held August the 27th for winding up the affairs of the company.

The Gold Bond company will hold a meeting tomorrow for the election of officers.

Star of the West.

Barker, Conkling et al., the lessees on the Star of the West on Squaw mountain have another shipment about ready. The ore may be called float, but at that it is rich and as it is taken out of the shaft more than paying working expenses after deducting royalties. The lessees themselves are non-communicative to news-searchers, but at the same time are said to be posting their friends that they have to a certainty cut the extension of the famous Santa Rita vein.

Anaconda.

A special meeting of the stockholders of the Anaconda company will be called to order in Denver tomorrow morning. It is generally conceded that John G. Milliken, the St. Louis capitalist, who has succeeded D. H. Moffat as president of the company, will carry through his scheme of reorganization without opposition. His proposition, which has been previously outlined by the Gazette, is briefly as follows: The capitalization will be increased in the number of shares from one million to two million, but at the same time the par value will be changed from the present valuation of $5 to $1 a share. Stockholders will receive share for share in the new stock. The increased capitalization will be applied on the company's debts, amounting approximately to $125,000, and in addition will furnish a substantial treasury reserve in cash and stock which will be available for the development of the property.

Blanche.

The Blanche company resumed work today on the Uncle Sam, and it is asserted that shipments are to be resumed in the very near future. The deepest workings on this property are 324 feet, at which a crosscut is being run for the vein opened in the upper level.

Lessee Finnerty of the Red Bird shipped out 30 tons yesterday for which the final extravagant claims are made. The best of the previous shipments would indicate a value at the optimistic limit of three ounces to the ton.

NO OPTION ON BURNS CLAIM

Of Acacia Company--Marked Increase in the Value and Volume of the Output.

The two leases on the Burns claim of the Acacia are now earning over 30 per cent. a year on the selling price of the stock.

There is no option out on the Burns claim, as reported among the brokers of Colorado Springs and Cripple Creek. This statement is official. Mr. Hundley, president of the Acacia, yesterday stated for publication that there is no option on any part of the property and that none will be given. Line in the settled policy of the management. Sometime ago there was an option on the Burns claim for half a million and it was pointedly discussed at the time. But such a one for the Burns claim today would not be entertained by the management, nor, if given by the management, would it be ratified by the stockholders, for the Burns claim is now earning over 30 per cent. a year on selling price of the whole stock of the Acacia company—$1,500,000.

As indicating the confidence which the new and energetic management of the Burns is inspiring, it may be mentioned that an offer was yesterday made on the exchange of 45 cents a share for 250,000 shares of the stock, with ten days to make the delivery.

The fact is steadily gaining recognition that the Burns is developing strong bonanza features. The ore in the 700-foot level of the Wreckoff lease is showing nearly double the value of the 500-foot level and the width of the ore body has increased from three and one-half to five feet. It should be understood also that most of the force on this lease is engaged in pushing the shaft to the 600-foot level, with all speed to save the life of the lease, and that at that level Wreckoff will have 500 feet of clear sloping and will be able to make a great output.

The light output from the Brady last week resulted from the necessity of removing the old air compressor to install a new one of greater capacity. The output represents, but three days hoisting and indicates a present capacity of 25 tons a day for that lease alone. But with the new compressor and an additional power drill in the stopes this will be much exceeded. There is a great deal of ore in the Brady ground, though it is of a lower average value than that on the Wreckoff ground.

The output for the week, as published Sunday morning shows: Wreckoff lease 100 tons, average value over five ounces. Brady lease 85 tons, average value a little over three ounces.

Only a part of the smelter returns have been received to date. Those in hand show one lot of 20 tons from Wreckoff averaging a trifle over seven ounces. The company gets a royalty of 25 per cent. on the Wreckoff ore, but only 20 per cent. on the Brady ore, and it will, as indicated, receive from the shipments of both leases last week (with a three-days' lay-off on the Brady lease) the sum $3,526 or at the rate of $15,760 a quarter—or a little more than 2 cents a share per quarter. Also a little more than 2½ cents a share per month on the present price of the stock.

STARTLING FACTS ABOUT EL PASO

An Official of the Company Gives a Definite Account of El Paso Mine's Condition, Etc.

A treasury reserve of $90,000, enough ore broken to occupy the present force of men for the next six months and one of the largest plants of machinery in the camp is the status of affairs of the El Paso Mining company. The shipments for the last week from this mine were 150 tons, which netted the company $102 per ton. Another consignment of 100 tons of the same grade ore is at present at the smelters, and, as yet no returns have been received.

The production will be materially increased when the new eight-drill air compressor is in running order. This will be the last part of machinery that must be added, to make the El Paso one of the most completely equipped mines in the district. The compressor will arrive on Saturday and will be installed at once. Already $30,000 have been expended on the surface machinery, all of the latest and best. The boom on the property was used on the John A. Logan claim, where the first shaft, over 1,000 feet, was sunk. With the present equipments it will be possible to attain a depth of 1,500 feet. The triple compartment is now down about 100 feet below the 1,000-foot point and will be sunk to the 1,500-foot point before a crosscut is driven to the vein. When the new plant is in working order the shaft will be sunk at the rate of 100 feet a month. Every ounce of the ore taken out of the mine so far has been from above the tunnel level, and from the tunnel level is an ore-shoot 150 feet of the Tillery vein, from which the ore is chute from where all the ore is being hoisted, stands from the Fannie B. claim across to the Orizaba No. 2 claim. The ore reserves blocked out in the stopes above the tunnel level will occupy the present force of men 18 months to remove it, so it is assured that the present output will be maintained for quite a time to come, if not increased. At the depth of 35 feet below the tunnel the Tillery vein dipped into the shaft and much apprehension was felt lest it would dip out of the claim. When the vein was not the ore matched with the vein from the tunnel and returned to where it came from. The ore is of uniform grade and seldom is any rock encountered that will not return shipping grade. The past record of the El Paso is $500,000 shipped before a depth of 275 feet was acquired.

MORE DETAILS FROM DOLLIE V.

Granite-Quartz Vein Now Encountered Which Gives Splendid Indications--Stock Takes a Spurt.

On change today, in spite of a downward market, Flower of the West stock displayed remarkable vigor and gained a half cent during the call. For the last two weeks, daily reports of an unusual strike on the Dollie V. claim of this company have been floating in from camp. It is now evident that these accounts have not been exaggerated as recent developments on this claim are giving better promises every day. The shaft which lessees are sinking is now down 50 feet and a vein of [illegible] inches wide has been opened up. The vein both shows values at present, and, as it will converge with the What Is It vein at the depth of 100 feet, a good ore body will doubtless be encountered. The What Is It vein is on a porphyry dyke and at the contact of these two formations rich deposits of gold are almost always the rule. The Dollie V. shaft house is on the county road on the outskirts of Cripple Creek and 300 people pass the scene of these developments every day. Another inducement that this company offers to investors is that the last advance in the price of stock, according to the company has been accepted in the court of Teller county.

TWO HUNDRED AND FIFTY TONS

Shipped from the Independence T. & M. Co.--New Air Compressor Arrived at the Mine Today.

A car for shipment was sent out from the company's workings on the Independence T. & M. company's ground last week, for which returns have just been received. The ore is of a mill grade and is hoisted from the third and fourth levels. A fair average of the shipment is one and one-half ounces to the ton. Another shipment of smelting grade ran $142 for 40 tons. This ore was taken from the fifth level, while the sixth is full of water. Today at the mine a large air compressor arrived and will be installed at once. This will do away with the inconvenience of being dependent on the big La Bella air plant, which having been out of order two months ago, necessitated the Hull City to curtail its work for two weeks. It is promised that the new plant will be in running order by August 1, which will be a great improvement and assistance to the production.

BOND FOR $15,000 TAKEN UP

The $15,000 Bond on the Whippoorwill Claim Taken Up--About 90 Acres Left of the Company's Holdings.

[illegible] strength of Buckhorn stock is the fact that the bond on the Whippoorwill claim has been taken up. The bond for $15,000 has been held by E. S. Johnson of the Blue Bird company. The claim is a two acre portion on Bull hill hemmed in by properties of the Dante, Blue Bird and Union companies and by force of contact is a very valuable fraction. The bond being taken in, however, a lucky stroke for the Buckhorn company for the Whippoorwill is only a small part of its holdings, as, in addition, the company owns 40 acres of inside property and the funds derived from this means will be directed to the development of the other claims. The other property is also well located, about 40 acres being in the immediate vicinity of the Isabella ground and a nine-acre claim called the Grass adjoining the Gold Knob properties. A bond for $25,000 is now running on the Grass claim which will soon be due. Besides these 50 acres the company owns 40 acres of deeded ground northwest of Cripple Creek.

MINING NOTES AROUND TOWN

INSIDERS BUYING AMERICAN CONSOLIDATED.

American Consolidated stock was very strong yesterday morning, and closed in great demand at 10 cents. The reason for this advance is rather due to the efforts which insiders are making to buy the stock than any development on the property. However a lease on the Last Stake claim of this company is being considered.

FINNERTY LEASE NOT FORFEITED.

The latest reports from the National ground are very encouraging. The Finnerty lease question has been decided and Finnerty retains his lease. The ore is being taken from the second level and 30 tons were shipped yesterday. It is expected that the shipment will be all of smelting grade. The vein, as yet, has not been cut at the third level.

ANACONDA BOOKS CLOSED YESTERDAY.

Anaconda books closed yesterday prior to the important meeting which occurs tomorrow. Shareholders are very anxious to hear of the outcome of this meeting, as it will be of much interest to them. Six hundred shareholders are on the books of the company, an average of about 1,600 shares to each certificate, which shows a very loosely held stock.

CONTRADICTORY RUMORS ABOUT MARIPOSA.

Mariposa is quite a topic of speculation on the board at present and all manner of rumors are current regarding the property. The officers of the company give very scant information about it, but it is stated on good authority that the ore which is uncovered in the Mariposa workings is unlike that of the specimen sent, and is far from being of a shipping order, as the pay rock is all found in limited pockets.

POINTER REPORTED IN GOOD CONDITION.

Pointer's condition is reported to be in excellent shape, as the vein is constantly improving and there is every prospect of the property becoming a regular shipper. The bulk of the ore being mined is from the fourth level and two carloads left the ground last week. The company itself is working the Gold Hill claims.

LEASE ON ELECTRIC HAS BEEN EXTENDED.

The Cadillac Gold Mining company [illegible] for six months from the 15th of July. This claim adjoins the [illegible] company and is understood to be the condition of the extension that a considerable amount of work to be done is to be commenced at once.

NOBLE COUNTY LEASE CANCELLED.

The Ferguson Gold Mining company [illegible] Noble Chimney claim on Squaw mountain, has cancelled its lease of leasers on work on the north 500 feet of the claim. The new lessees are Delbeny and associates, and it is their intention to develop the property with the idea of catching the big vein, which is supposed to run through the claim and from which the tunnel on the west is supposing some rich stuff from the floor. The shaft is down 60 feet and will be sunk to a greater depth immediately. Work was begun by the new people on July 16 and has been progressing satisfactorily to the company ever since that time.

STRATTON'S NEW COMPANY.

The gigantic company organized by W. S. Stratton to operate his various Cripple Creek properties acquired by him during the past nine months is [illegible] Mining and Development company with a capital of $10,000,000. The incorporation was accomplished under the laws of Wyoming, and W. S. Stratton, W. A. Ramsay, W. A. Baldwin, J. H. Emerson and D. H. Rice are the directors for the first year. The purpose of the company is to mine and operate in the Cripple Creek district [illegible]

New York Stocks.

New York, July 23.—The influential interests which have gradually taken the leadership in the stock market continued their efforts today to make a rising market with the object of inviting public buying. They were not discouraged by the failure of outside interests to develop on account of last week's advance and they resumed their bullish manipulation from the opening this morning. There was not much difficulty apparent in advancing prices, or if any obstruction appeared in the shape of offerings in larger volume than could be absorbed the leaders turned their attention to stocks whose upward course was easier. There was some accession of outside buying which is the ultimate object of the present buying, to act as a reliance for absorbing stocks at a higher level. The appearance of this buying encouraged the [illegible] to renewed efforts and the day's market as a result, gave an appearance of greater activity and more strength than any day last week. The movement of Sugar had marked influence on the whole market and its late reaction precipitated a movement to take profits elsewhere, so that the closing was easy at considerable recessions from the best.

[illegible] A few stocks were active and strong, a large number showed sharp advance after being dormant for a time, so that very meagre transactions were sufficient to move them. But the majority of the list was only moderately active and continued very sluggish, small net gains being the rule in sympathy with the strength in special stocks.

The bond market continued dull and prices moved irregularly. Total sales, par value, $1,350,000.

United States old 4s coupon and new 4s advanced ½ in the bid price.

The Metal Market.

New York, July 23.—The metal market ruled rather quiet today and prices were not materially changed except for spelter, which was a shade higher and firm at [illegible]. The [illegible] was quiet at unchanged prices here, the nominal quotation being $17. Copper consumers to pipe dull at $16.50. Lead $3.95@4.02½. Old iron and steel were offered at lower prices.

The brokers' price for lead was $3.95 and for copper $16.50.

CHICAGO GRAIN.

Chicago, July 23. Wheat [illegible] tame market today. Liverpool showed practically no response to the advances here Saturday the world's shipments were large. It was the sort of news which created the beginning of a September opening 1½@1 under Saturday. There was some covering by shorts for profits, a little buying by traders following this, and September rallied to 68⅛. The rally which traders were playing for failed to materialize because of outside apathy and a reaction followed. Heavy receipts and a very slack cash business during the rest of the session held the market through to the downward course and the wind up was lifeless and weak.

Corn was quiet but steady.

Oats followed corn.

Provisions opened firm on light hog receipts and an advance at the yards, but turned easier and closed weak.

THE COLORADO SPRINGS MINING STOCK EXCHANGE

Colorado Springs, July 23.—For a Monday, the market this morning was not particularly lively, as generally Monday brings forth a great number of accumulated orders, and thus trading is very active, but today there seemed comparatively little business, especially in the prospect list. On the other hand prices held up well after the rising market of Saturday, and very little reaction was noticed. There seems to be great firmness underlying the present market, as on the slightest break, prices recover immediately, owing to the vast number of people, who are waiting for stocks to go lower.

The amount of sales reached 709,856, with a cash value of $18,664.50.

SUMMER SEPARATE SKIRTS made of duck piqué or crash, all washable and costing you but little more than the bare material

The last of June we were in New York attending the manufacturer's clearing sales We bought 125 dozen of ladies shirt waists all new and stylish this season's waists and you get many of them at about half the early season's price With the stock we already had, we now have over 2,000 to fill shirt waist orders

We don't want a woman in this community to remain in ignorance of this splendid waist outfit.

Every ladies tailor made suit that we show is new this season

The $12 00 Suits are ..... $6 00.
The $15 00 and $18 00 Suits are..... $9 00 and $10 00.
The $35 00 and $25 00 Suits are $15 00.

These prices hardly cover the actual cost of the material

We make all alterations free

We have one of the best and we believe the very best up to date notion departments in this city with prices that are brought down to date
